

THE LEMON LODGE

Dear guests,

Bellow follows a thorough description of how to get to us.

Please read it carefully and use the GPS link given in the text.

The GPS link will bring you towards the road that will lead to The Lemon Lodge. All other roads recommended by Google Maps are non existing or only for 4x4. Once you have arrived at the GPS location, or pinned it down as your first stop, you can type in The Lemon Lodge.

We recommend to download this area on Google Maps as you will pass a no-signal area.

Route description

The GPS code will lead you onto the N267 towards the turn off of Cerca Dos Pomares. At this turnoff you will see recycling bins, as shown on the hand-drawn map. Take this exit and follow the signs until Cerca Dos Pomares. At some stage you will see a sign with Alcaria and The Lemon Lodge, here you go left. This road will turn into a gravel road from here but is still accessible for all cars. Once you are almost at the top the road takes a turn towards the right, here you should see an old ruin on your left and a sign of The Lemon Lodge that is only another 800 meters away. Follow the turn, and drive around our property to arrive at the Lodge. Another mark point is that you will see a little dam on your left hand side. Keep on following the road until you see our sign on your left hand side.

Welcome, you have arrived :)
